Faculty Development Interest Survey

The attached survey was presented at today's Faculty Senate meeting with some discussion of additional ideas and suggestions. Please send your response via email or campus mail no later than Wednesday, October 1st. The CTLA Advisory group will be meeting to plan activities for the remainder of the term later next week and we would love to have your input to the process. Thank you for your time and prompt response.

Do you want to go on a trip? Apply for the 2003 Assessment Institute.

The University Assessment Committee would like to send two (2) faculty members to the 2003 Assessment Institute sponsored by Indiana University-Purdue University in Indianapolis November 2-4, 2003. This is a very informative and practical conference that has a special tract of presentations especially for health care education. Some topics include: "Peer Teaching Assessment", "Development and Implementation of an Annual Performance Appraisal System", "Assessment in a PBL Curriculum: the Good, the Bad and the Ugly", and "Mapping Assessment across the Curriculum". There are many other individual topics as well as the plenary sessions. For more info, check their website:

<http://www.planning.iupui.edu>

Several faculty and administrators attended last year and reported that it was interesting and useful. You would be expected to make a short brown bag presentation upon your return with other NWHSU attendees. Primary consideration will be given to those who have not yet attended an assessment program. Clinical faculty members are especially invited to apply.

Please return the application via email or campus mail or contact Noni Threinen (ext 277) before Wednesday, October 1st. Thank you.
