VOLUME OF COLLECTION: 2 boxes

RESTRICTIONS: None

COLLECTION DESCRIPTION: The photographs in this collection are mainly from the donations of Dr. and Mrs. J. Lamoine De Rusha. However, some photos are from those taken by the school at school functions. Several depict the De Rushas at various events during their time at NWHSU (then NWCC), but there are also others showing people and events related to Northwestern Health Sciences University.

The photograph collection is separated into three sections: one solely of Dr. Lamoine De Rush; one of general, identified photographs; and the last of general, unidentified photographs. The photographs are separated again into black & white and color, only for ease in finding any specific photo.

The contents are listed in chronological order, with undated photographs listed last. In some of the identified pictures, there are short descriptions of the event or location shown; in other cases, only names are recorded.

Folders 5-22 contain photos and items from an exhibit a former student, David Hinz ('89), created. The photos and copies he displayed are now in numbered folders although they had been mounted on free-standing boards for exhibition.

CONTENTS:

Box 1:
Folder 1—Dr. J. Lamoine De Rusha  Black & white:
