

NWHSU Student Body and Outcomes Fact Sheet

Enrollment and Student Body:

Fall 2024 Total Headcount Enrollment: 1089

Fall 2024 Total Program Enrollment: 1132

Race/Ethnicity	Percent
American Indian or Alaskan Native	0.55%
Asian	6.06%
Black or African American	8.26%
Hawaiian / Pacific Islander	0.09%
Hispanic	4.12%
White	46.01%
Two or more races	2.75%
Nonresident Alien	8.17%
Unknown	22.87%

Gender Identification	Percent
Male	35.72%
Female	64.19%
Not Reported	0.09%

Pell Grant Eligibility	Percent
Proportion of Undergraduate Student Body	22.60%

Sunsetting Program

*Programs have a cohort size of less than five during this period

**New programs that do not yet have a completion rate

Student Achievement and Outcomes – Definitions

Retention is the proportion of degree-seeking students in a cohort who remain registered for courses past the 10th day of their fourth term with that fourth term occurring during the 2023-2024 academic year.

Completion is the proportion of degree seeking students who complete their degree within 150% of the time reaching termination during the 2023-2024 academic year. Students who withdrew after only one (1) term in the program are not included in the cohort.

Licensure pass rates for A.S. Radiation Therapy and A.A.S. in Radiologic Technology is defined as the number of students who pass, on the first attempt, the American Registry of Radiologic Technologists (ARRT) certification examination, or an unrestricted state licensing examination, compared with the number of graduates who take the examination within six months of graduation. The five-year average benchmark established by the JRCERT is 75%.

Licensure pass rates for Doctor of Chiropractic is defined as the weighted four-year average of percentage of graduates Passing all Parts (I, II, III, IV) of the National Board of Chiropractic Examiners (NBCE) Exams or becoming licensed in a state, province, or country within six (6) months of graduating.

Licensure or certification is not required for Certificate in Therapeutic Massage, Certificate in Relaxation Massage, A.A.S. in Massage Therapy, B.S. in Human Biology, M.H.S. in Functional and Integrative Nutrition, M.H.S. in Integrative Care, or Graduate Certificate in Integrative Health and Wellbeing Coaching. Processes are being developed to provide data and reporting on licensure rates of graduates in Acupuncture and Chinese Medicine programs as certification exam data covering the reporting period are not yet available from NCCAOM.

Employment or Educational Success Rates are based upon self-reported data in instances when no less than five students from the 2023-2024 graduates responded to the survey, except for graduates earning an A.A.S. in Radiologic Technology or A.S. Radiation Therapy which is defined as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences within twelve months of graduating. The five-year average benchmark established by the JRCERT is 75%.
